

## THE STOMACH CHANNEL OF FOOT YANGMING

### THE STOMACH PRIMARY CHANNEL

- begins at the lateral side of the nose at Yingxiang L.I.-20,
- ascends to the medial canthus where it meets the Bladder channel at Jingming BL-1,
- descends laterally along the infra-orbital ridge to Chengqi ST-1,
- descends to enter the upper gum and curves to meet with Yinjiao DU-28 and Renzhong DU-26,
- circles around the lips and meets the Conception vessel at Chengjiang REN-24 in the mento-labial groove of the chin,
- runs laterally across the cheeks to Daying ST-5 and to Jiache ST-6 at the angle of the mandible,
